

Bradley Beach Walkable Community Workshop

ONLINE MEETING TUESDAY, SEPTEMBER 15, 2020 10:00AM TO 11:00AM

BRADLEY BEACH IS INTERESTED in improving the pedestrian experience along Main Street near the Bradley Beach Train Station and downtown commercial district. On July 21, 2020 a virtual public workshop gave participants the opportunity to analyze the corridor, discuss pedestrian safety and experience related concerns, and possible solutions. Based on this input, the study team developed recommendations that aim to make walking a safer and more attractive option for residents of all ages and abilities. Your feedback is needed to help us finalize these recommendations.

Please join us in a virtual meeting to learn about the audit findings, view the initial design concepts, and provide your feedback!! The meeting is open to all, but pre-registration is required.

The Complete Streets Technical Assistance Program is a collaboration between Sustainable Jersey, the Voorhees Transportation Center at Rutgers University, and the North Jersey Transportation Planning Authority (NJTPA). Funded by the NJTPA, the program is designed to support municipal government efforts to advance complete streets initiatives.
