

WARNING: POTENTIAL FIRE HAZARD

From the Office of Bradley Beach Community Development

November 6, 2012

Building Questions

If you have or suspect structural damage, qualified persons may stabilize the structure. A design professional should be consulted to determine the full extent of the damage and proper methods of repair.

Plumbing Questions

Gas appliances (water heaters, boilers, furnaces) must be inspected/reconditioned/certified by a licensed contractor. They may be able to be reconditioned or may have to be replaced depending on the extent of the damage. If gas meter and regulator were submerged, contact New Jersey Natural Gas Company at

1-800-221-0051.

Electrical Questions

Any wet/water damaged panels, meters, switch gear, meter sockets, need to be cleaned/inspected and reconditioned/replaced by a NJ licensed electrical contractor or testing lab.

Please contact Bradley Beach Construction Office 732-776-2999, ext 16, if you have any concerns or questions about this matter.
