

IMPROVED BEACH[°] ACCESSIBILITY

Introduction

The Borough of Bradley Beach is implementing improvements to make our beachfront more accessible for disabled persons. Changes are scheduled for 2023 and we will assess any additional changes in 2024.

BEACH LOCKERS

All beaches will have one (1) unit of three (3) additional lockers added per beach in 2023 (33 total across 11 beaches). These three (3) lockers will be reserved for disabled persons. These lockers will be placed close to the beach entrances.

These lockers are first come first served annually.

- Criteria is being developed/finalized

ACCESS MATS

The Borough will be adding additional
access mats and will be installed
in front of all lockers

At those locations all Access Mats that run
East of the beach there will be a "T"
installed for wheelchair turnaround.

WHEELCHAIRS

Five All Terrain Beach Wheelchairs are available for use.

A Gateguard and Lifeguard have procedures in place to provide.

+

SIGNAGE

+
•
Signs will be added to all fifteen (15)
Handicap parking spots along the
beachfront which will direct everyone to
the four (4) access beaches.

SHOWERS

The Borough will be installing larger showers on Fourth Avenue Beach and Kent Avenue Beach to accommodate wheelchairs.

Summary

The Borough is striving to make the beach more accessible and we appreciate your patience as we do so in the coming years.
